Note

Subject: ***Go-Live of TREC Management System***

In reference to DSE/COWTAD/Dev_in_house-Software/2022/2512, dated October 2, 2022, from the TREC Affairs Department, we are pleased to inform you that we have developed a web-based version of our desktop-based in-house software developed in FoxPro. This new version is scalable and maintainable and can be operated from any location via the website. **Additionally, we have replaced several legacy software and consolidated them into a single data source for TREC-related information.**

Milestones of the First Version of the Project:

Sl No	Task Name	Remarks
1	Replaced the In-house desktop application(FoxPro)	Obsolete system developed 15 years back
2	Replaced Reminder desktop application built with Windows Forms (.Net)	To send alert notifications on the expiry of stock broker/Dealer license and authorized Representative license.
3	Replaced (Partially) the APP Support web-based application (.Net) (http://10.218.1.17:9000/)	App support and IT Infrastructure Dept. are using this software
4	Data migration to a single database.	

Key Features

- Successful migration from a desktop (FoxPro) in-house system to a web-based application.
- Integration of digital booth information.
- Mapping of TWS (Trading Workstations) information with users and locations
- Expansion of information related to TREC-holder companies
- Expansion of information related AR (Authorized Representatives) including phone numbers, addresses, NID (National ID) details, and spouse names.
- Inclusion of CAMALCO information.
- Inclusion of Power of Attorney information
- Inclusion of DUAL TREC information.
- Inclusion of TREC Auditor information.
- Inclusion of TREC Capital (Paidup and Authorized Capital) information.
- Inclusion of TREC Parent Company information
- Inclusion of AR (Authorized Representatives) Expiry Reminder

- Inclusion of Broker Expiry Reminder
- Inclusion of Dealer Expiry Reminder

- TREC status name change Report,
- Broker Renewal Report
- Broker status change Report
- Dealer Renewal Report
- Dealer status change Report
- Office status change Report
- Office type change Report
- Office Shift Report
- Office Search Report
- AR (Authorized Representatives) Renewal Report
- AR (Authorized Representatives) status change Report
- AR Search Report
- Workstation status change Report.
- Workstation office change Report.
- Workstation AR (Authorized Representatives) change Report.
- Workstation Search Report

We have demonstrated the project several times and included features based on feedback. We are now ready to release the first version of the project. As we move forward, our immediate focus will

be on bug fixing, error resolution, and minor adjustments to our current solution. Once we have stabilized the system, we will incorporate additional features.

A meeting was held on **02-Jul-2024**, in the ICT conference room with the stakeholders to discuss the go-live roadmap of the TREC Management System.

Participants

Name	Designation	Department
Md. Samiul Islam	General Manager	Market Development
Mohammad Asadur Rahman	General Manager	Board and Corporate Affaires
Md. Tariqul Islam	GM and CTO(In-Charge)	CTO Office
Md. Shaheen Sarwar Hossain	DGM	CTO Office
Mohammad Ruhul Amin	DGM	Application Support
Md. Mahmudul Hasan	DGM	Application Support
S. M. Shahidullah	AGM	TREC Affairs
Mohammad Kamruzzaman	Sr. Manager	MIS and Development
Dewan Muhammad Sariful Islam	Sr. Manager	Network Development (Distance Communication)
Gazi Makhdum Hossain	Sr. Manager	Application Support
Ahsan Habib Un Nabi	Manager	Application Support
Abdul Mannan Bashar	Dy. Manager	TREC Affairs
Md. Saiful Islam	Sr. Executive	MIS and Development
Nasrin Sultana	Sr. Executive	TREC Affairs

During the meeting, we demonstrated our newly developed TREC Management System for the top management. We have shown the project several times to the concerned department and it was in UAT for more than 6 months we incorporated many additional features based on the feedback received.

According to the decision made, we are now ready to release the first version of the project. Enhancement is a continuous process, and we will integrate many other features in the future phase by phase.

The team agreed on the following implementation schedule:

Implementation Plan

System Configuration:

We have already configured the TREC management system at the URL:
https://trec.dse.com.bd:9200/

Access required for the department employees has to get approval through the DSE-ERP user and audit module for the role in TREC Management.

Task	Responsible Department	Time Line	Remarks
Final Data Migration	MIS	Thursday, 04-Jul-2024	Thursday after office hours
Data Verification with Live Operation	TREC Affairs and Application Support	From 07-Jul-2024 to 10-Jul-2024	Information will be verified with the existing in-house system. If any critical update/data entry is required, it needs to update both systems during the period simultaneously.

Go-Live: Thursday, 11-Jul-2024

After going live, no entry will be allowed to the old In-house(FoxPro) system.

Mohammad Kamruzzaman
Senior Manager and Head of MIS

CFO, COO (In-charge) & Managing Director (Acting)

Sir <MD Sir>
I discussed this in the last MANCOM meeting. Our legacy software related to In-house TREC Magt. is converted to new format and platform. This is go-live permission
