Signature of the Appraisee

Part - 2	Performance Appraisal

(To be completed by the Appraisee and reviewed by the Supervisor)

Appraisal of Achievements Against Key Objectives / Key Performance Indicators

Rating scale:

Outstanding : 5 (Achieved all KPIs and substantially exceeded expectations);
Good : 4 (Achieved all objectives);
Fair : 3 (Achieved objectives in general but shortfalls observed in achievement of the major KPIs);
Acceptable : 2 (Achieved objectives partially and needs improvement);
Poor : 1 (Performance has been poor throughout and found unsuitable for the assigned job role).

SL	**Key Objective / KPI** (indicate according to persons specific job/task assigned at the beginning of the year/date of posting)	**Achievement Against Objectives** (Comments in detail as to performance against each KPI) *(Use additional page, if required)*	**Performance Rating**
1	Go-Live, Support and Maintenance of TREC Management System	• Led development for successful launch the application on July 11, 2024, which replaced three legacy systems (in-house FoxPro application, Reminder Windows Forms application, and migrated the TREC info from the legacy APP Support application) • Provided comprehensive pre and post launch support across live, UAT, and development environments. • Provide user support, perform bug fixing, log monitoring, server maintenance, SSL certificate management, and optimize system performance. • Handle database maintenance and backup monitoring, as well as file server monitoring and backup. • Prepared project documentation, including the Software Requirements Specification (SRS), User Manual, and Test Case Documentation • Conducted End-User Training and provided system demonstrations	
2	Data migration from Excel to the TREC Management database to establish a single point of entry and reduce data redundancy across multiple sources after go-live	• Migrated digital booth data from Excel to the TMS database and integrated digital booth with office, ensuring seamless office integration and eliminated Excel dependency. • Migrated mobile and email data from Excel to the TMS database, mapped it to Personnel records and eliminated Excel dependency to communicate with Authorized Representatives.	

3	TREC Management System (Change Request)	• Implemented multiple file upload functionality to manage TREC documents on the digital platform. • Added new reports (TREC View, TREC Search, Broker Search, Dealer Search), implemented advanced filtering on AR, Office, Workstation reports, and updated AR, Broker and Dealer Expiry Reminders reports as per Change Request.	
4	TREC Management System (Share Holding Module)	• Analyzed business requirements to define project scope. • Designed and implemented the backend architecture and the corresponding frontend UI theme. • Collaborated on the design Normalized Database Schema. • Ensured code quality through rigorous functionality testing, code reviews, and refactoring to enforce architectural standards and promote clean code practices.	
5	Operation and Support (CNS-CDBL)	• Adding Instrument, Spot setting, Group Change, Rename Instrument, Delist Instrument, Trade Code Change, Holiday Operation, Add Member, Fund and Share shortage • Instrument, Payin, Payout and GSec file process along with CDBL Operation. • User account administration, User IP management, Password Change	
6	Maintenance and Support (ERP)	• Analyzed business requirements for Meeting and Action Plan Management. • User support, bug fixing related to file upload, SSL certificate maintenance.	
Overall Rating (average of all ratings):
